...Parking Lot Construction. As you all know beginning in June we will start our Green Storm-water Infrastructure. The installation process will begin around the first week of June. Right now plans are to work on the South lot (large lot) first. The timeline for that lot will be 4-6 weeks; which will have that part completed around the bazaar. We will start the lot closest to the church right after the bazaar and it should be completed by October. We understand the headaches that construction brings, but we will try our best to make it as hassle free as we can. **Next weeks bulletin will list alternative parking options.**
